

FIGURE 3

Number of 2011–2012 seasonal influenza vaccine doses for children 6 months through 8 years of age.

- This simplified approach is only possible because the 2011–2012 influenza vaccine contains the identical 3 influenza virus strains used last year in the 2010–2011 vaccine.
- The number of doses to be given is determined on the basis of the child's age at the time of the first dose.
