

NORTHWEST ASTHMA & ALLERGY CENTER

December 15, 2023

To Our Patients,

Just a brief note to let you know that after 36 years, I am retiring from clinical practice at Northwest Asthma & Allergy Center on January 31, 2024.

It has truly been a pleasure and a privilege to provide specialty care to so many patients. In many cases, I've had the opportunity to see three generations within a family and treasured the chance to share the incredible advancement in our understanding about disease as well as the evolution of novel treatments.

To be honest, I will greatly miss taking care of patients as part of our healthcare team at Northwest Asthma & Allergy. I will miss hearing about what's new with your family, and you asking about mine.

It's now time for me to spend more time with my family including my wife, my three children, their significant others and my four grandchildren. In early 2025, I will also have the privilege to serve as president of the American Academy of Allergy, Asthma & Immunology – an organization that has meant a great deal to me and our entire specialty during my career.

Thank you all for entrusting me with your care. I wish you and your families all the best in the future.

Frank S. Virant MD
