To the patients and families of Northwest Asthma and Allergy Center,
It is with a heavy heart and somber feeling that I will formally announce that I will be leaving Northwest Asthma Allergy Center. It has been my distinct pleasure and honor to care for so many of you over these last 9 years.
My choice to leave the NAAC is due to the significant changes to my own family as I will soon be welcoming the birth of my first child. My new position will allow me the flexibility to be available for my family and will also allow to do what I truly love, which is the development of the next generation of treatment in the field of immunology, allergy, and rheumatology.

Wish you all the very best,

Daniel Petroni MD, PhD
